End of The Year

As 2022 comes to an end with a thankful heart we want to express the gratitude for the many things God has done. As we move forward and spend time reflecting on God's goodness we are encouraged by the testimony of women who want to share the love of God with the women in prison. To the many who have extended a prayer, act of service, bible study, or various commitments, we want to express a big "Thank You". We stand strong in our belief in God's word and know that He wants to share His love for those willing to commit their lives to Him. It is our prayer that as we continue on this journey, we hope for a John 4:39 experience for the women in Gatesville, "many believed because of her testimony." It is also our hope to encourage the believers who are allowing God to transform their lives while in prison and present the good news to those who do not have a relationship with Jesus Christ..

The following goals were accomplished this year:

1. Prison outreach starting in 2023
2. Housing for women furnished and ready
3. Office, therapy area and pantry in process
4. Development of TRM's The Well serving committees

Our Hopes for 2023

Moving forward in 2023 TRM's The Well is ready to serve and is seeking help to share God's message of hope and love.

In prison mentors

Special events volunteers

In prison teachers

Out of prison life skills teachers

Out of prison biblical teachers

Employers for second chance employment

A Message From the Program Director

Restoration is always at the center of what we do here at TRM and being restored through a relationship with Christ leads to many blessings. One of the blessings is the healing of relationships with one's family or other broken relationships. Michelle, our first resident at The Well, is a good example of God's restoration. She and her husband, Chris, were at TRM. On their journey they have made a commitment to Christ and are making the steps to restore their family. They are now a happy family of three and have been reunited with their son. Both parents are working and have settled in their apartment and secured transportation. Michelle has also started a small business called Get Some Stitches. This is only the beginning of their restoration story. We have seen so many others over the past 18 years and are looking forward to seeing all that God has in store for the women to come.
